

PRODUCT INFORMATION

DESCRIPTION

CLION-X effectively removes all chloride salt residues from salt spreaders, plows, truck bodies and frames. Chloride salt residue forms a strong and corrosive bond with painted and unpainted metals. Remove all traces of chloride salt residue from your equipment to prevent rust, integrity failure, to prolong the life of your equipment and increase the return on your investment. Include **CLION-X** in your Truck Wash Bays and Bridge Deck Wash maintenance programs.

USE

The first step in the **Molycor System** is to remove and neutralize the chloride-ions attached to your equipment due to winter use. After friction, the chloride-ion is one of the single most costly components in your equipment maintenance program. According to a study done at Rensselaer Polytechnic Institute, the price of highway salt is only 3.5% of the overall cost of winter maintenance. Before you put that spreader away for the summer, and before you declare winter over, use **CLION-X** to remove the Chloride-ions. Improving the life-cycle of your equipment is the single most valuable maintenance action you can take.

DIRECTIONS

Mix **CLION-X** with water at 8 oz. per gallon and use to wash equipment as normal. For heavy buildup of salts, mix with water at 10 oz. per gallon.

SPECIFICATIONS

Color.....Clear Liquid
 Odor.....Slight Acidic Odor
 Boiling Point.....221°F
 Vapor Pressure (mmHg).....14.6-80
 Vapor Density (AIR=1).....1.3@20°C
 Solubility in Water.....Complete
 Specific Gravity (H₂O=1).....1.05 to 1.18

WARNING

This product is for Industrial and Institutional Use Only. This product contains Phosphoric Acid and Hydrofluoric Acid, which may be fatal if ingested. These inorganic acids may cause severe burns if used improperly. Avoid direct contact with skin. Wear protective clothing. Rinse empty container before disposal. Always read label before using. **KEEP OUT OF THE REACH OF CHILDREN.**

FIRST AID

Skin: Immediately flush skin with cool water under shower while removing contaminated clothing and boots. Discard non-rubber shoes. Wash clothing before reuse. Get immediate medical attention. **Eyes:** Flush with plenty of water for at least 15 minutes, get medical attention. **Ingestion:** Can cause severe mouth, throat and stomach burns. Can affect kidney function and be fatal if swallowed. Take immediately to a hospital or physician. **Inhalation:** remove victim to fresh air. Get medical attention if breathing is difficult.

Note: See Material Safety Data Sheet for Additional Specifications and Information.
